

Dear host family,

I wish to thank you for hosting me for this Erasmus project. I am very thankful for everything you have done for me that week.

I loved everything from the culture you shared with me through making, respectively, buying me traditional food like souvlaki and ice cream made from goat milk. I also enjoyed learning about some greek history through visiting the Maritime Museum, which gave me the opportunity to also see some cool things and have fun. I won't forget to mention how happy I was to have been given the possibility to also engage with the artistic side of Rethymno through our visit at the art exhibition "What you wear is what you are".

I felt like I was part of your family that week I stayed there, and you were not anything below an extraordinary host family, because you were so welcoming.

I will not forget all the great memories (I have 1000+ pictures, just to make sure I won't) I made during my stay with you. If I ever find myself back in Rethymno, I won't hesitate to give you a call, maybe we could go out for ice cream. Likewise, if you come to Romania, me and my family would be more than happy to meet with you. I hope my letter finds you well, and I send wishes and prayers.

With love, Ryana

THANK
YOU

Dear Georgios,

Thank you for the warm welcome and the care you gave me during my stay in Greece. I felt truly welcome in your home and I really appreciate the hospitality, kindness and openness you showed.

It was a pleasure to meet your family. Thanks to you and them, this experience was not only educational, but also full of beautiful memories, which I will always cherish. You made me feel like part of your family and for that I am deeply grateful.

I hope to return to Crete someday and see you all again!

With much gratitude,
David

Dear Gavgiotaki family,

You have been my second family for an entire week, you've supported me and gave me the best time of my life. I'd give anything in this world to see you again, even just for a day. Being your "foster" daughter was such a blessing and everything just leads to thanking you for everything.

I truly had an amazing time and I'm very grateful for your kindness, hospitality, and the way you welcomed me into your home. You made me feel comfortable from the very beginning.

At the ending of this letter, I want to thank you for every little detail, especially for every Souvlaki.

I miss you and I can't wait to see you again!

Hugs, Carla

Dear hosts,

I would like to sincerely thank you for the wonderful experience I had during my Erasmus stay in Greece. Your kindness, and generosity made me feel welcomed and comfortable from the very beginning.

Thanks to you, I had the opportunity not only to discover a beautiful country, but also to learn more about your culture, traditions, and way of life. Every moment spent there was meaningful and unforgettable.

I truly appreciate all the effort you put into making our stay so enjoyable. You were more than just hosts, you became friends, and I will always remember this experience with a smile.

Thank you once again for everything. I hope we will meet again someday!

Cynthia
